Secrets of the Dead video

1. What evidence suggested to David Keyes the possibility of a global climatic catastrophe?
2. Identify some of the nations where this evidence occurred.
3. What was Keyes' next step in developing his hypothesis?
4. What were the three primary suspects as the cause of this event?
5. What ruled out two of the three possible causes?
6. What polar evidence supported the third possibility?
7. Based on the evidence, when and where did this event take place?
8. What medical catastrophe is said to have been caused by this event? Where did it originate? What aided in its spread?
9. What was the "second punch from the East" to the Roman Empire "caused" by this catastrophe?
10. What major Western religion's growth may have been aided by this catastrophe?
