

Chapter Exam Correction Guidelines

For Mrs Bailey’s MAT0028C – DEVELOPMENTAL MATH II Class

1. Rework all incorrect and/or not attempted problems, showing all steps, neat and numbered, on a separate sheet of paper.
2. Use one or more complete sentences to explain the error/correction for each problem.
3. Staple the revisions on top of the original exam.

For maximum credit all work and answers must be completely correct and the student must use either the columnar or stacked format as demonstrated below:

Columnar

Stacked

<u>C4 Exam Corrections</u>	<u>Name</u>	<u>C4 Exam Corrections</u>	<u>Name</u>
#3) -2^0	#3) I didn’t realize that the base was just 2. I was	#3) -2^0	
- $[2^0]$	Using (-2) as the base. This time I raised 2 to the	- $[2^0]$	
- $[1]$	Zero Power and then I took the opposite of that.	- $[1]$
