

How to Complete Assignments for this Class

To complete assignments for this class, log into MyMathLab (www.mymathlab.com) with your username and password. Select our class.

In the menu on the left, click Assignments, then click the dropdown buttons All Assignments, All Chapters, and Show All.

The screenshot shows the MyMathLab interface. On the left, the 'Assignments' menu item is highlighted. The main area displays a table of assignments under the heading 'Homework and Tests'. The table has columns for 'Due', 'Assignment', 'Time Limit', 'Attempts', and 'Gradebook Score'. The assignments are sorted by due date, with the first column showing dates from 09/02/17 to 09/09/17. Red boxes highlight the 'Assignments' menu item and the filter buttons 'All Assignments', 'All Chapters', and 'Show All'.

Due	Assignment	Time Limit	Attempts	Gradebook Score
09/02/17 11:59pm	Questions on the Syllabus (Required!!)			
09/02/17 11:59pm	Section 1.5 Homework			
	Study Plan for Section 1.5 Mastery Quiz			
09/02/17 11:59pm	Section 1.5 Mastery Quiz		0 of ∞	
09/05/17 11:59pm	Mini-Project 1 Packet		0 of 1	
09/09/17 11:59pm	Section 2.1 Homework			
	Study Plan for Section 2.1 Mastery Quiz			

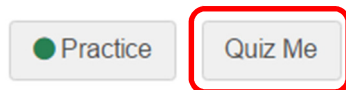

The due dates for all assignments are in the left column beneath Due. Since they have been sorted chronologically, work your way from top to bottom.

Study Plan Assignments

Eventually, you will reach a Study Plan assignment (indicated by a purple ring). When you click such an assignment, you'll see a window like this one:

The screenshot shows the MyMathLab interface. On the left is a navigation menu with options like 'My Courses', 'Manage Course', 'Course Home', 'Assignments', 'Author in Action Videos', 'Guided Lecture Notes', 'Chapter Contents', 'eText', 'Study Plan', 'Gradebook', 'Skills for Success', 'Tools for Success', 'Multimedia Library', 'Purchase Options', 'Discussions', 'Course Tools', 'Instructor Resources', and 'Lecture Notes (Print Me)'. The 'Assignments' section is highlighted. The main content area is titled 'Study Plan' and includes tabs for 'Prerequisites', 'Progress', and 'All Chapters'. A dropdown menu shows 'Section 1.5 Mastery Quiz' selected. Below this, it says 'MP Earned 0/2'. A message states: 'Earn at least 2 mastery points (MP) to begin Section 1.5 Mastery Quiz. Practice the objectives, then take a Quiz Me to earn MP'. Under the 'Objectives' section, '1.5 Solving Inequalities' is listed with two bullet points: 'Solve inequalities.' and 'Solve combined inequalities.' To the right of each bullet point are two buttons: 'Practice' (with a green dot icon) and 'Quiz Me' (with a purple ring icon). The 'Quiz Me' buttons are highlighted with a red rectangle. At the bottom, there is a footer with course information and the MyMathLab logo.

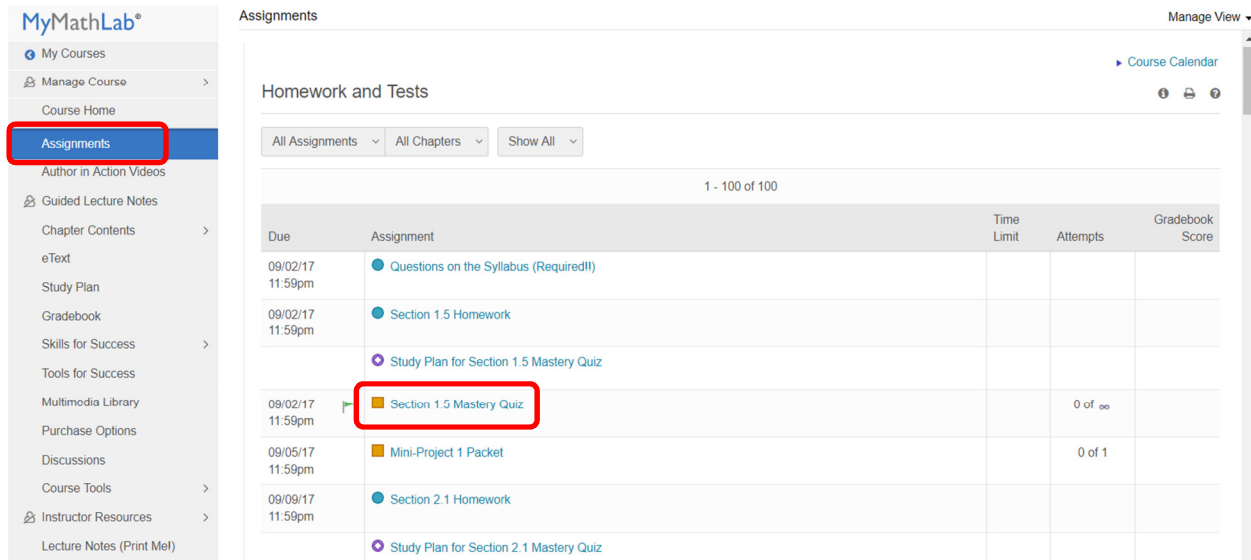

Begin by completing problems in the “Quiz Me” area.

Each Quiz Me consists of up to four problems associated with that learning objective, ranging from easy to hard. If your score on those problems is 75% or higher, you earn a Mastery Point (MP). If your score on those problems is not 75% or higher, the “Quiz Me” option becomes unavailable until you complete at least one Practice problem correctly. (I recommend you choose the problem(s) you got wrong on the Quiz Me.) You must earn all available mastery points to move on to the next step, a section Mastery Quiz.

Mastery Quizzes

Once the required number of Mastery Points is earned, the next step is unlocked and you are ready to take a Mastery Quiz. Click Assignments in the menu on the left side, and then select the Mastery Quiz.

The screenshot shows the MyMathLab interface. On the left sidebar, the 'Assignments' menu item is highlighted with a red box. The main content area is titled 'Homework and Tests' and displays a table of assignments. The table has columns for 'Due', 'Assignment', 'Time Limit', 'Attempts', and 'Gradebook Score'. The 'Section 1.5 Mastery Quiz' is highlighted with a red box in the table. Below the table, there is a 'Manage View' dropdown menu.

Due	Assignment	Time Limit	Attempts	Gradebook Score
09/02/17 11:59pm	Questions on the Syllabus (Required!!)			
09/02/17 11:59pm	Section 1.5 Homework			
	Study Plan for Section 1.5 Mastery Quiz			
09/02/17 11:59pm	Section 1.5 Mastery Quiz		0 of ∞	
09/05/17 11:59pm	Mini-Project 1 Packet		0 of 1	
09/09/17 11:59pm	Section 2.1 Homework			
	Study Plan for Section 2.1 Mastery Quiz			

You can take the Mastery Quiz as many times as you'd like, and the highest score will count.

Remember that a significant portion of your overall grade in this class comes from these mastery quizzes. Therefore, it is important to do your best to unlock every mastery quiz for the entire semester.
