

How to Earn a Retake of Exam 1

Print or copy this form on a piece of paper. Complete the checklist below, then turn it in to me (Professor Lacoste).

☐ Correct your test

Go to my website and find the file called "Test Corrections (Instructions)" and follow its instructions.

☐ Demonstrate proficiency with your multiplication tables

Use this website to practice:

https://www.helpingwithmath.com/resources/online_flashcards/flashcard_multiplication03.htm

Then visit Professor Lacoste during office hours to demonstrate proficiency.

☐ Demonstrate your integrity

Visit me during my office hours. You will receive a task to complete that will demonstrate your integrity.

Do at least one (1) of the following:

☐ Complete a practice test

Go to my website. There are five practice exams there. Complete one of them and bring it to me. You may print it and do your work on the pages you printed, or you may do your work on your own paper.

OR

☐ Study the Exam 1 Overview and demonstrate proficiency

Go to my website and find the file called Exam 1 Overview. Study it. Be prepared to answer every one of those questions. Visit me during my office hours to demonstrate proficiency.

If you complete just one of the tasks in the bottom box, I will average your first exam score with your retake exam score to determine your replacement exam score. If you complete both tasks in the bottom box, I will take the highest of your two exam scores to determine your replacement exam score.
