

## Course Schedule

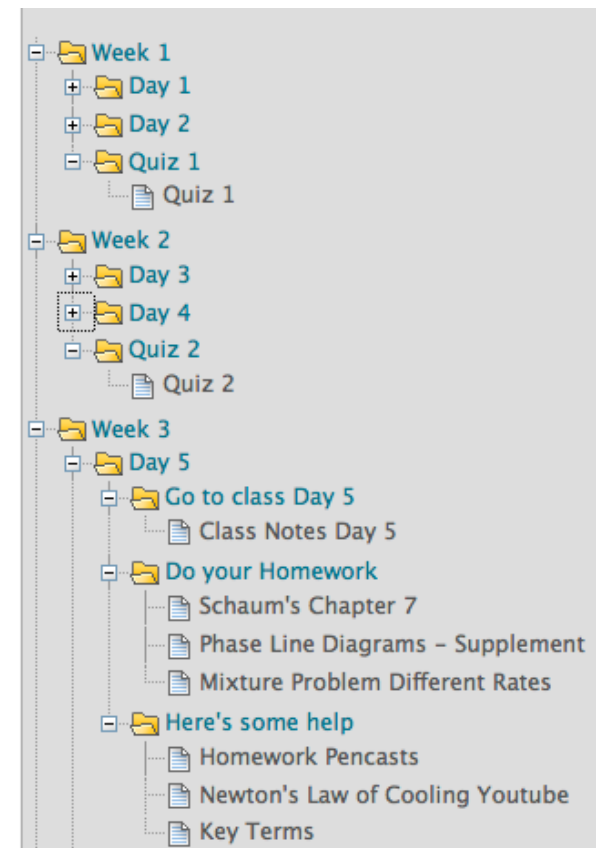

As you can see if you look in the BB online course, under the link “The Course”, the Online DE course was set up according to a 2 day a week, one hour and 15 minute class, 15 week schedule. The screenshot shown below shows an example of the layout.

This was done to make it seem as close to a face – to – face class as possible. In the summer short term, however, classes meet longer per meeting than in a 15 week class so that makes my one hour and 15 minute Pencast lectures not fit exactly into the same day by day schedule. So all the week numbers and day numbers that are in the course will not apply to you, since there’s obviously not 28 days or 15 weeks in the short summer term.

Therefore, I am giving you this calendar that will make it clear (hopefully) where you should be and at what time in the course.

The calendar below gives you the quiz number, the location in the 15 – week layout where you can find the quiz, the class days the quiz covers, as well as the due date for that quiz. You should cover all the material up to that location in the course before you take the quiz.

So for example, Quiz 1 is located in the Week 1 Folder, after Day 2, so you should cover Day 1 and Day 2 before you take Quiz 1 and it is due on midnight on 5/12. Exam 1 Review Materials are located in the Week 4 Folder. These materials are not graded or handed in, they are just provided to help you study for the test. The Unit 1 Exam covers all the material in Days 1 through 6 and the exam will be in testing center starting on 5/20 and will be available until closing time on 5/23.

All quizzes are open at the start of the semester and are due at midnight on the day listed.

## MAY

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
1	2	3	4	5	6	7
8	9 Syllabus Quiz Opens at 8 AM	10	11 Syllabus Quiz Due	12 <b>Due:</b> Quiz 1 <b>Folder:</b> Week 1 <b>Covers:</b> Days 1,2	13 <b>Due:</b> Off Site Testing Form – if you are NOT testing at a Valencia site	14
