Course Description	• Course based on the study of topics that include differentiation and integration, techniques of integration, and infinite series.
Required Material	• Notebook and pen/pencil • TI-84 calculator

Grade Calculation

• The course is based on a 100-point scale:

Module	Sections	Test	Points
Module #1	1.1, 1.2, 1.3, 1.4, 1.5, 1.6	Test #1	20 points
Module #2	2.1, 2.2, 2.3, 2.4, 2.5, 2.6, 2.7, 2.8	Test #2	20 points
Module #3	3.1, 3.2, 3.3, 3.4, 3.5, 3.6, 3.7, 3.8, 3.9	Test #3	20 points
Module #4	4.1, 4.2, 4.3, 4.4, 4.5, 4.6	Test #4	20 points
Module #5	5.1, 5.2, 5.3, 5.4, 5.5	Test #5	20 points
Total Possible Points			**100 points**

• A student's final course grade is based upon the total points earned:

A	B	C	D	F
90 - 100 points	80 - 89 points	70 - 79 points	60 - 69 points	0 - 59 points

Lectures	• It is imperative students attend all lectures. Lectures are the foundation for the homework, test reviews and tests.
Homework (HW)	• Ungraded homework assignments will be assigned for each section and are found in the lecture notes. • Homework assignments reinforce what was learned in class and serve as invaluable practice opportunities.
Extra Credit (Test Reviews)	• For each test, there is a test review worth 1 extra credit point. There are 5 extra credit points available. • Test reviews are closely correlated with each test. It is wise to complete these optional assignments. • **Test reviews must be printed, complete, and turned in on time to receive extra credit. All work must be shown.**
Tests	• There are five tests for the course, all conducted in class. Test #5 is not cumulative and only covers Module #5. • **Each module's test is worth 20 points. Take the percent correct on the test and multiply by 20.**
Attendance/ Lateness	• Students are required to attend class, be on time and sign in. Students are responsible for learning missed material. • **Students are allowed 3 absences. For each absence after that, their final grade will be reduced by 5 points.** • **If late, students should quietly enter the classroom and sit at the first available desk.**
Calculator	• The TI-84 calculator is required and is the only authorized calculator for class, homework, and tests. • Rentals are available at the Math Lab (1-144), Depot (4-121), Library (4-202), or Learning Center (3-100).
Canvas	• The course syllabus, lecture notes, homework, test reviews and grades will be posted to [Canvas](#). • Students are responsible for reading any Canvas e-mail sent by the professor. Please check Canvas regularly.

Crawl-Walk-Run	• To be successful in the course, students should follow the **Crawl-Walk-Run** learning model:
	  • **Crawl:** students attend class, arrive on time, and are prepared to learn <u>before</u> class starts.
	  • **Walk:** students actively participate and actively learn <u>during</u> class.
	  • **Run:** students work efficiently <u>after</u> class by studying their notes, re-working the in-class problems, completing the HW assignments and repeatedly completing the test review.

Conduct	• Please be courteous and do not disrupt class. The professor will dismiss a student disrupting class. • **Cellphone use is not permitted in class** and will result in dismissal, except for calculator and camera applications. • E-mail is for administrative purposes, not for math questions. **All math questions will be answered face-to-face.** • **Students found cheating, in any manner, will receive a final grade of F and be permanently dismissed.**
Make-Up Policy	• **There are no make-up tests nor test retakes. Students who miss a test will receive a test score of zero.** • **In the event of a valid and documented emergency, the professor may approve a make-up test.**
Miscellaneous	• There are no faculty-withdrawals at Valencia College. The self-withdrawal deadline is **October 24.** • Students with an OSD accommodation letter must see the professor to discuss course testing procedures. • This syllabus may change. Students will be notified of changes and provided a revised syllabus in Canvas.
