

Directions

Using lecture notes + textbook, you are to define or identify the numbered terms, telling me the importance of a place, thing, building or person. Some words need descriptions & functions. Do not copy & paste from the internet. Do your best the first time for there is no redoing of work. Study guides are graded for: neatness, spelling, grammar, timeliness, & following directions. Remember to keep a copy of your finished work TO STUDY.

Example of what your work should look like:

12. Nefertari – The favored #1 Queen of Pharaoh Ramses' II who assisted him on diplomatic missions which helped to expand Egypt's borders. We learned that she was pretty hot, tempting & gorgeous. Her tomb, located in the *Valley of the Queens*, was found empty except for her makeup chest. The wall paintings in her richly decorated tomb show the descent of Queen Nefertari's **Ka** or spirit into the underworld.
