

MAC 1105 Homework Problems – Fall 2013

These are identical to the problems assigned on MapleTA. You may use MapleTA, print out the questions from MapleTA then answer directly, or merely use your textbook to answer the questions.

Regardless of method, homework is due the same day as the tests on the relevant chapters, but may be submitted earlier.

Problems subject to change at instructor's discretion; problems will be added as course continues.
