### Technique for Online Classes

- Research has shown that students who are ***highly self-directed and manage their time well*** are more likely to succeed using these delivery methods. Online courses can be time intensive. Varying keyboard skill rates can impact the amount of time students spend completing course work online. It is recommended that students carefully evaluate their readiness and abilities in these areas before selecting distance learning courses.
- All students registered for an online course at Valencia are expected to use the CANVAS Learning System for their work. All students will be expected to complete the online CANVAS training (available from the CANVAS Course Homepage) if they do not know how to use CANVAS 9.1. Resources to assist students in determining readiness for online courses may be found at <http://valenciacollege.edu/oit/ltad/StudentResources/tutorials>.
- Since this is an online course, all of your learning will take place when you read the book, do the required assignments, refer to the online content in CANVAS, communicate with the class over the Internet via your online classroom in CANVAS. Even though the class does not meet in person, you are still expected to do the same amount of work of classes that meet three hours per week over the normal semester including additional time for homework.

Course Schedule and or Assignments may be subject to change by discretion of instructor. It is the students' responsibility to remain informed of any changes and/or additions throughout the term of the course. Information will be communicated by CANVAS. It is imperative that you check your CANVAS email regularly (preferably each day) for an update or as additional information required for an assignment, project, class activity, etc. Note that the Announcements section in addition to the Discussion Board needs to be monitored at least more than once a week by each student.

**Even though this is an online class in Canvas participation is still required.** It is expected that you log in to CANVAS at least once daily during the week. I expect ALL students to participate in CANVAS and to read all announcements, discussion board postings, email messages, etc. and submit all required online assignments by the due date. Failure to submit an assignment, discussion posting, quiz and/or exam resulting in a “0” will not be an excuse to “*I did not see that.*”

### Learning Support Statement – Spring 2022

Learning Support Services provides students with academic support through distance tutoring, face-to-face tutoring at the campuses, writing consultations, library services, and resources. Tutoring is offered in most academic disciplines including math, science, foreign languages, English for academic purposes (EAP), computer programming and writing assistance for any course. Assistance with library research can be accessed online through Atlas or the tutoring LibGuide. **NOTE:** Brainfuse is our new 24/7 online tutoring and learning hub, which is available to all of Valencia's students. This service is best used as backup to Valencia's Distance Tutoring service, not as a replacement.

► Brainfuse is accessible through Canvas or by visiting [www.valenciacollege.edu/tutoring](http://www.valenciacollege.edu/tutoring).

## Canvas Technical Support

All faculty members and students needing assistance with CANVAS may contact the Valencia CANVAS Help Desk by calling 407-582-5600 or email [onlinehelp@valenciacollege.edu](mailto:onlinehelp@valenciacollege.edu).

It is strongly recommended that you print a copy of the course syllabus and course assignments, and keep them in a binder so that you have the information as needed as reference throughout the term.

All important course information will also delivered via Atlas at the beginning of the course. All students who registered for courses at Valencia do have an Atlas account. Not login onto the course regularly may result in missed assignments, chapter quiz, exam, or project, etc. Not turning in a due assignment, quiz, exam or project as assigned by the due date will result in a grade of "0."

## EVALUATION: Tests and Assignments

During the session, there will be scheduled exams using **MindTap**, within Canvas. There will be tests on the course subject materials including hands-on exercises. Failure to complete the announced exams by the posted due date will result in a “0” for that exam.

There will be NO makeup exams. The Module Exams, Mid-Term Exam and Final Exam as announced will be available online via **MindTap** for approximately one week period—refer to the schedule at the end of this syllabus. You must take time to take all the exams during the testing period allowed for each one. If you wait until the last date of availability and then an emergency arises that prevents you from taking the exam, you will not be granted an extension for any reason. There will be NO exceptions, so plan to take the assigned exam early within the allowed time period.

Mid-Term Warning: If you are making a grade lower than a C at or about mid-term, you will be notified by your professor. If you receive below a “C” notice, you should meet or follow contact without delay with the professor. You not receiving a “below C notice” at mid-term does not guarantee that you will pass the course. If a student does not respond to a notice, the student may be withdrawn upon the discretion of the professor.

### Assignments and Modules Exams Procedure

All students will be required to complete an exam for each module. You will be able to take each exam up to three times. The highest score will count for grade. You **MUST** complete and submit the required work activities on time. Please note that if the work is not submitted by the deadline, ***you will not be allowed to submit at a later date*** or AFTER the due date; as a result, the grade for that specific module will be a “0.”

Any work which is not completed by the appropriate deadline will receive a zero. Hence, the final grade for the course will be determined by taking into consideration the percentages obtained by work which was turned in and the zeros given to work which was not turned in on time. Any student who withdraws or is withdrawn from a class during a third or subsequent attempt in the same course will be assigned a grade of "F."

**"NO SHOW" STATUS.** Class attendance is required beginning with the first class meeting. For an online class, that means "login" as instructed whether completing a posting in the Discussion Board/and or sending an email to instructor as assigned. If you do not attend the first class meeting, you may be withdrawn from the class as a "no show." ***If you are withdrawn as a "no show," you will be financially responsible for the class and a "W" will appear on your transcript for the course.***
