Writing Center Instructor:

Please assist this student with his or her pronunciation. If the student says a word incorrectly, wait until the end of the sentence and discuss how to say the word like a native speaker. Use the sound symbols chart on page ix in the text to demonstrate the appropriate sounds to use. Also, help him or her with the definition of difficult words per the instructions above. Please make this a conversational and relaxed discussion of practical word meanings. If the student completes reading the chosen article, ask him or her to read another; the consultation should take the full thirty minutes. Please legibly write your name so I know which WC instructor the student met: \_\_\_\_\_.
