Sect. 5-6

All Factoring

(No new information)

There is no new info in this section.

The (difficult) practice here is to determine what type of factoring needs to be done to simplify the problem

Is it

GCF

Trinomial (any type: there are 3)

Grouping

Diff. of Squares

Sum / Diff Cubes

Or a combination of 2 or more

The only way to learn this
is to practice
practice
practice
